Encl: (1) Department of the Navy Audit Committee Charter

The Department of the Navy (DON) is committed to fiscal accountability and the efficient and effective management of our financial resources. That commitment is reflected in my priority objectives for fiscal year 2004, reference (a). Managers in the department need to develop tools to better support decision-making along with the financial accounting improvements needed to obtain a clean opinion. To this end and by reference (b), the Assistant Secretary of the Navy (Financial Management and Comptroller) (ASN(FM&C)), staff developed a DON Mid-Range Financial Improvement Plan. Though the goal of this plan is to achieve a favorable audit opinion of the DON Financial Statement, ultimately what we need is relevant, reliable, and timely financial information that DON manager's can use to make informed business decisions. The DON plan should accomplish both goals.

To ensure that the success of this plan is not impeded in anyway, I am establishing an audit committee that will assist in the oversight of the financial improvement process as it progresses. I am designating the ASN(FM&C) to chair the committee and with that position the authority to form task forces and various work groups across functional areas to resolve the myriad of accounting and reporting issues that are at the various reporting levels of the DON. Enclosure (1) provides a copy of the DON audit committee charter. Though this charter outlines the duties and responsibilities of its membership, cooperation of the entire DON community is needed to achieve the objectives of the DON Mid-Range Plan.

Subj: ESTABLISHING THE DEPARTMENT OF THE NAVY AUDIT
COMMITTEE

As provided in references (c) and (d), the audit committee will interface with the audit community to ensure that the financial statements are ready for audit. The DON will build upon this plan to achieve excellence in business and financial management.

Purpose. To establish the Department of the Navy (DON) Audit Committee.

Background. By references (a) through (e), the Department of Defense (DoD) is one of 24 Chief Financial Officer (CFO) organizations required to prepare and submit to the Congress and the Director of the Office of Management and Budget (OMB) audited financial statements for the preceding fiscal year, covering all accounts and associated activities of the agency. As a component of DoD, per reference (f), the DON, including the Navy Working Capital Fund is also required to produce and submit an annual audited financial statement as well as unaudited quarterly financial statements. Reference (g) provides for the audit requirements of the financial statements. Over the past decade there have been several efforts to improve the accounting and reporting of business events/transactions with the objective to provide reliable, relevant, and consistent data for managers to make informed business decisions. As plans and resources are provided to improve accounting and reporting of business transactions, there is a need for oversight to ensure the objectives are coordinated across functional areas/domains. Moreover, by reference (h), the Under Secretary of Defense (Comptroller) directed the military components to establish audit committees for the purpose of overseeing the annual audit of the financial statements and to provide a forum to discuss and resolve a wide variety of accounting and auditing issues. The DON Audit Committee will not only fulfill that requirement
